

Mihajlo Čabraja

Frontend developer

+381621045986 · cabrajamihajlo@gmail.com · www.linkedin.com/in/mcabraja

I'm an experienced frontend developer with over two years in the field, enthusiastic about adopting new technologies and looking for a frontend or fullstack developer role. Proficient in HTML, CSS, JavaScript, TypeScript, and frontend frameworks like React, Angular, and Next.js, I specialize in creating dynamic web applications. My skill set extends to backend technologies, including Next.js, and I have expertise in database management (MySQL, NoSQL, PostgreSQL) and Restful API integration. With a strong background in NPM, Git, and GitLab, I'm well-equipped for collaborative development. I am also a holder of EU passport and I am willing to relocate.

KEY COMPETENCIES

- HTML / CSS / SCSS
 - Javascript / Typescript
 - TailwindCSS / Bootstrap
 - React / Angular
 - Next.js
 - Unit testing (Jasmine, Karma)
